

# Tenyészértékbecslés Hírek

2020 december

## Új bikáink tovább erősítik a választékot

Nagy örömmel mutatjuk be új bikáinkat! A GENEX olyan kiegyensúlyozott genetikát kínál, a magas ICC™ értékkel rendelkező bikáktól kezdve a szarvatlanságot hordozó bikákig, amely a következő generációk számára is biztosítja a tenyésztés sikerét!

5n• ^VYfd **1HO15461 BREAK EVEN** is much more than his name portrays! This Timberlake son is an all-round leader with his +967 ICC™ and +2931 TPI®. He is also a Type specialist (+1.41) transmitting exceptional udders (+1.72 Udder Composite). With more than +1500 pounds of Milk, +130 pounds of Combined Fat and Protein (CFP) and positive component percentages, BREAK EVEN has your production needs covered for the next generation.

## Új bikáink ICC™ Rangsorban

1HO15461	BREAK EVEN	+967
1HO15463	PHENOMENON	+937
1HO15478	BREAKDANCE	+872
1HO15482	LIFESAVER	+836
1HO15345	RIDELL	+829
1HO15367	VARVATOS	+801
1HO15483	GETAWAY	+794
1HO15359	DASHSPOT-PP	+714
1HO15375	SASTA-RED	+474

HERD GENETIC LINE

**1HO15478 BREAKDANCE** debuts at over +1600 pounds of Milk with +148 CFP making him an easy option to improve yield. At +872 ICC™, he offers overall genetic progress while also improving udders and component percentages.

If looking for tank-topping production, then **1HO15367 VARVATOS** is your guy! This Milktime son is among our best for the ICC™ Production Efficiency (PREF) sub-index, offering +2200 pounds of Milk and +166 pounds of CFP! He is +801 ICC™ and +2803 TPI®.

## New Polled Genetic Options

Two balanced homozygous polled sires are now available in **1HO15359 DASHSPOT-PP** and **1HO15353 BERZERK-PP**. These AltaDelson sons slot in at +714 and +571 ICC™ respectively. Both are great options to improve udders, component yield, and Fat and Protein percentages. They join our already industry-leading polled lineup.
